

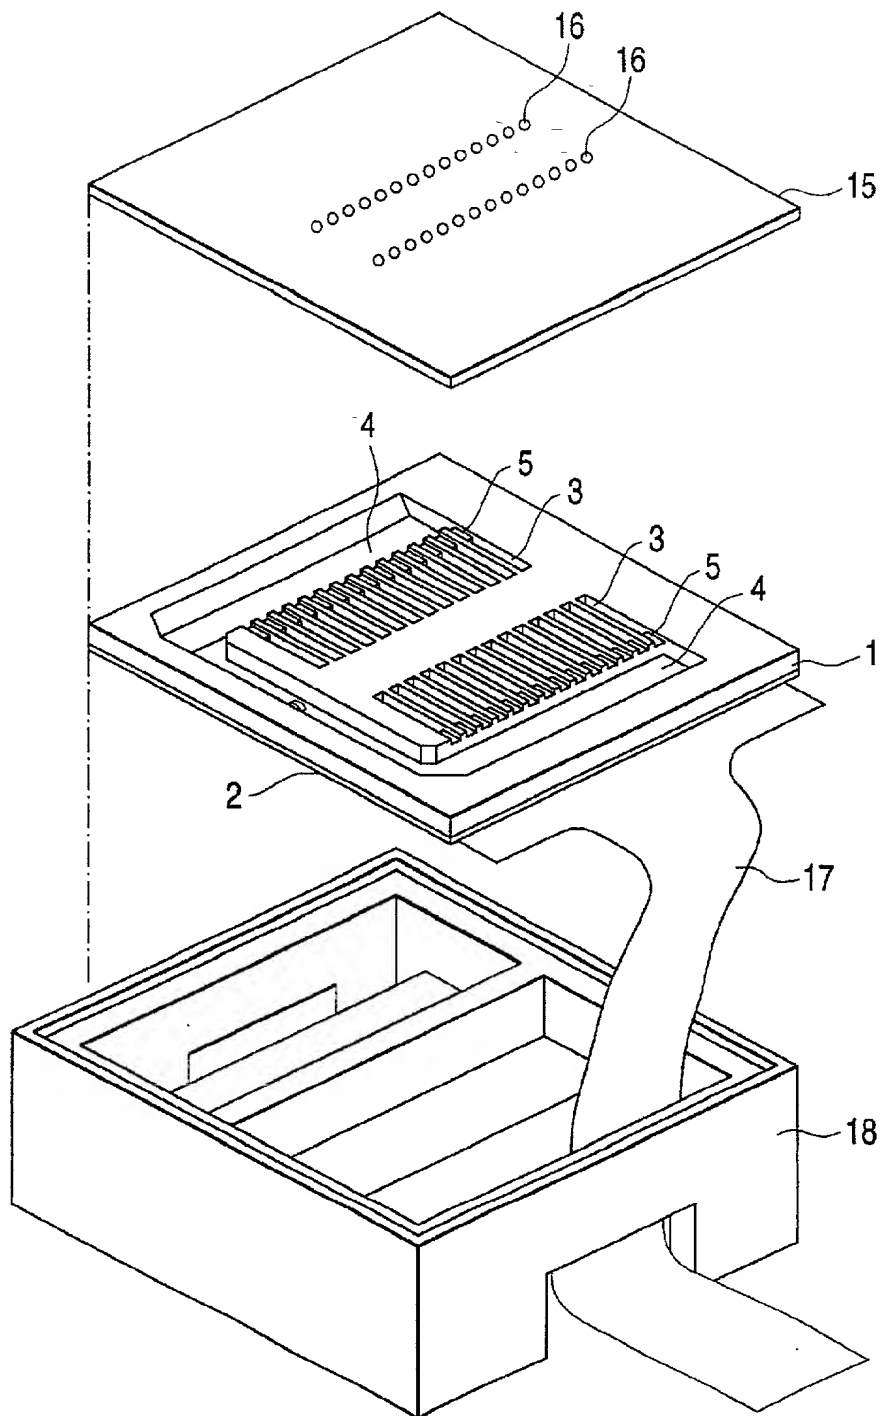

FIG. 1

The diagram illustrates three identical horizontal strips, each designated by the reference numeral 10. These strips are arranged one above the other. Within each strip, there is a dashed rectangular boundary labeled 11. Inside this dashed box, on the left side, is a small square feature labeled 13a. To the right of the square, still within the dashed box, is a rectangular section labeled 11b. Extending from the right edge of the dashed box is a long, narrow rectangular bar labeled 14. On the far left of each strip, outside the dashed box, are three wavy vertical lines representing electrical contacts or connections, labeled 3a, 3, and 11a from top to bottom. On the far right of each strip, also outside the dashed box, is another wavy vertical line labeled 3b.
